Recommendations:

- Continue to ensure that the school's explicit improvement agenda is consistently communicated, actioned and remains focused for all members of the school community.
- Review the target setting process with individual students in every subject, linking to specific actions for improvement, to determine its purpose and most effective method of implementation.
- Continue the implementation of ASoT focusing upon consistency and depth of practice by all teaching staff. Include continued sharing of expert pedagogical practice to drive this improvement.
- Continue to make the improvement of student attendance a key priority to improve student outcomes.
- Provide regular opportunities for staff members to receive professional development in the analyses and interpretation of data.
- Develop a consistent approach across faculties to the application of pre-testing and post-testing of students and the analysis of this data.
